

## **Module 1) Personal Information**

### **1. Briefly introduce yourself: name, educational background, and current status (student or professional).**

- Hello, my name is Jayna Badrakiya. I am a front-end developer originally from Rajkot, currently living in Jamnagar. I completed my Bachelor's degree in Computer Engineering from Marwadi College. Recently, I have been pursuing a certification in front-end development from Tops Technologies. Apart from coding, I enjoy playing badminton, dancing, and cooking.

### **2. Mention key personality traits, such as your creativity, analytical skills, or passion for problem-solving.**

- I like to keep my things organized and clean.
- I like to experiment with different things.
- I pay attention to details and like to think of new ideas for designing user interfaces.
- I like to work in a team.
- I am a multitasker.
- Good at my communication skills.
- Flexible person.

### **3. Explain your interest in technology and why you chose this career path.**

- I have always been fascinated by technology and how it can be used to create innovative solutions. I chose a career in front-end development because I love combining creativity with technical skills to build user-friendly websites and applications. Seeing my ideas come to life on the screen and knowing that they improve the user experience is incredibly rewarding.
